TITLE : DISK RECORDER, DISK  
REPRODUCING DEVICE AND DISK  
RECORDING/ REPRODUCING DEVICE

ABSTRACT : PURPOSE: To provide a disk recorder, a disk reproducing device and a disk recording/reproducing device capable of preventing the inconvenience so as to try again the recording or reproducing of the data from the beginning when the alarm data are outputted from a temperature detector.

CONSTITUTION: Operation control of a recording/reproducing part 3 is performed by a recording/reproducing control part 4 according to both a control command supplied from an external computer 10 through a system control part 8 and a detection output by a temperature sensor 5. Then, a data transmitting/ receiving part 7 is controlled by the system control part 8 of a control circuit part, and the recording data are recorded on a magneto-optical disk 1 by the recording/reproducing part 3, and further, the data are reproduced from the magneto-optical disk 1 by the recording/reproducing part 3 to be transmitted to the outside from the data transmitting/receiving part 7.
